### Video Released: Our Sustainability Initiative "Smiles & Health for Children"

2024/6/14

We have released a video showcasing a significant event, the handover ceremony of our sustainability initiative "Smiles & Health for Children." In this event, Morinaga Milk Group donated a kindergarten kitchen facility to the Department of Education and Training in the Tuan Giao District of Dien Bien Province, Vietnam. As part of the first phase program, which took place from May 2023 to April 2024, the construction of kitchen facilities with improved hygiene standards has been successfully completed at two kindergartens in the Tuan Giao District. The video highlights the handover ceremony, the before and after transformation of the facility, and heartwarming scenes of children enjoying their lunch at the new facility. Through this initiative, our aim is to promote the mental and physical well-being of children, creating a society filled with smiles and promising future.
